

Connecting Your Apple iPod touch or iPhone to Spot On's Wireless Network

Connecting your Apple iPod touch or Apple iPhone to Spot On's wireless network is easy. The screens for the Apple iPod touch were used in these instructions. The screens for the Apple iPhone are similar.

Before you get started, you need a Spot On Internet Access Account and your Apple iPod touch or Apple iPhone **Wi-Fi Address** must be registered with Spot On Networks.

Call Spot On to confirm at 877.768.6687.

These instructions assume that you are familiar with your device and its features. Follow the easy steps to access the Spot On wireless network.

1. On the Apple iPod touch or iPhone control panel, touch the **Settings** icon.

2. On the **Settings** control panel, touch **Wi-Fi** to display the **Wi-Fi ON/OFF** switch.

3. Touch the **Wi-Fi ON/OFF** switch to turn on.

4. Scroll down to **SpotOn**, and touch to select.

5. Open your browser, and start surfing.
